

The impact of federal threats to the health care system on New Yorkers

Nearly 7 million New Yorkers including seniors, children, pregnant people, people with disabilities and low-wage and part-time workers—rely on Medicaid for their health care.

Federal cuts to health care would devastate New Yorkers, hospitals, health care providers, insurance companies, local economies, and our State budget.

Impact of federal threats to health care on New York State:

Lowering the floor on the federal Medicaid Matching rate would cost **\$10.3 billion**

▶ Over 5 million New Yorkers are in the traditional NYS Medicaid group.

Cutting funding for the Medicaid Expansion population would cost **\$4.4 billion**

▶ Around 2 million New Yorkers are in the NYS Medicaid Expansion group.

If the enhanced premium tax credits lapse, it would lead to a **50% increase** in premiums

▶ Over 150,000 New Yorkers receive enhanced premium tax credits.

Impact of federal threats to health care on New Yorkers living in Congressional District 1:

40,400 adults have Medicaid coverage

21,200 children are covered by Child Health Plus

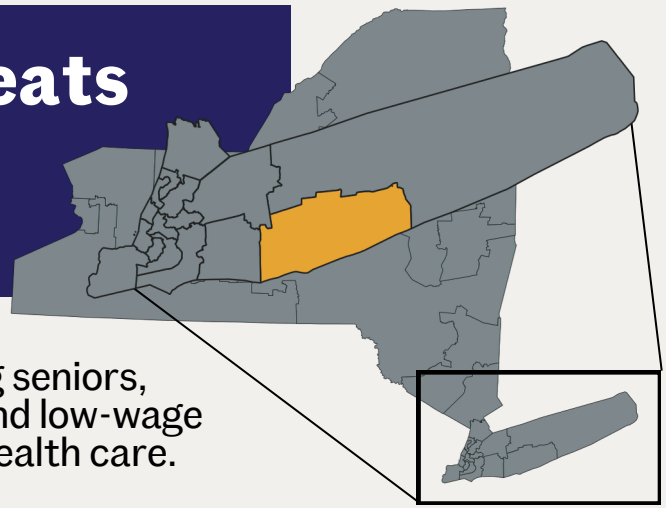

69,400 residents enrolled in the Essential Plan currently benefit from enhanced premium tax credits

10,700 residents will have their premiums increase if the enhanced premium tax credits lapse

\$114/month is the average amount premiums will increase for residents if the enhanced premium tax credits lapse
