

The impact of federal threats to the health care system on New Yorkers

Nearly 7 million New Yorkers including seniors, children, pregnant people, people with disabilities and low-wage and part-time workers—rely on Medicaid for their health care.

Federal cuts to health care would devastate New Yorkers, hospitals, health care providers, insurance companies, local economies, and our State budget.

Impact of federal threats to health care on New York State:

Lowering the floor on the federal Medicaid Matching rate would cost **\$10.3 billion**

➤ Over 5 million New Yorkers are in the traditional NYS Medicaid group.

Cutting funding for the Medicaid Expansion population would cost **\$4.4 billion**

➤ Around 2 million New Yorkers are in the NYS Medicaid Expansion group.

If the enhanced premium tax credits lapse, it would lead to a **38% increase** in premiums

➤ Over 140,000 New Yorkers receive enhanced premium tax credits.

Impact of federal threats to health care on New Yorkers living in Congressional District 1:

109,739 Constituents enrolled in Medicaid and Child Health Plus

Cuts would cause District 1 to lose **\$1.37 billion** in funding over a nine year period

20% of hospital inpatient discharges in District 1 are covered by Medicaid

77,200

Essential Plan enrollees
benefiting from enhanced tax credits

9,300

Qualified Health Plan enrollees
benefiting from enhanced tax credits

\$104

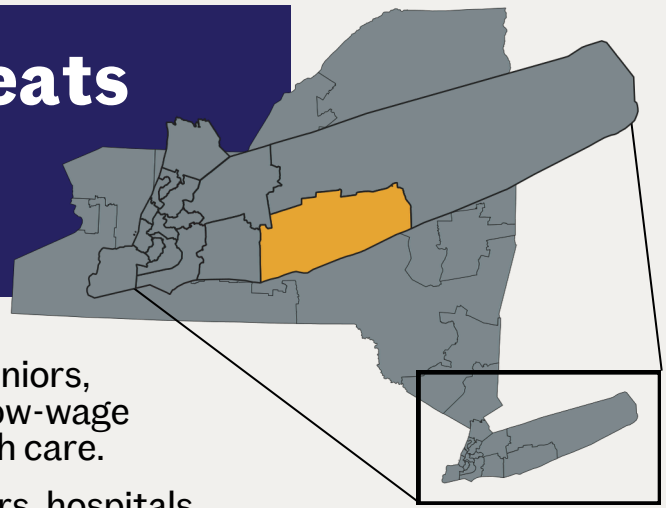

Increase in average monthly amount premiums for residents in the next year if enhanced tax credits expire

29%

Increase in premiums for tax credit eligible-consumers in the next year if enhanced tax credits expire
